• This month in the Super NES Showcase, we take a look at three of the newest 16-bit titles, including Super Tennis, U.N. Squadron and Super Baseball Simulator 1.000. Sports games take on a whole new realistic feel on the Super NES. The tennis game puts you right on center court—sometimes struggling with your backhand! And Super Baseball Simulator 1.000 gives you the ability to do just about everything but put pine tar on your bat.

• The NES version of Final Fantasy has been in Nintendo Power’s Top 10 for over a year, and fans have been clamoring for a sequel. Wait no longer, fantasizers, Final Fantasy II is here—on the Super NES! Imagine enemies rendered in gorgeous 16-bit graphics and sound that is nothing short of superb. Our review of Final Fantasy II will give you a taste of this fantastic adventure.

• If you think all jet fighting simulators are the same, NES Ultimate Air Combat will change your mind. As you’ll see in our review, there are two very different flying modes that set this title apart from all others. Add some great digitally-sampled voices and a wide variety of missions, and you get a game that really turns and burns!

• Also this month we scope out the antics of the official “modern Stone Age family.” When we first saw an early version of The Flintstones, we knew it was going to be really cool. Dino and Hoppy have been “dino-napped” by aliens from the future, but never fear! Fred and Barney are here! All they have to do is find the parts for a time machine that they can use to go after those pesky aliens.

• Another animated classic, Tom & Jerry, is also coming to the NES. They’ve been hassling each other for decades, and now Tom has trapped Jerry’s nephew, Tuffy, in the attic. This month’s review includes a map that will come in handy.

• And finally, happy faces get their just rewards in a soon to be released Game Boy title from Bullet Proof Software. FaceBall 2000 lets you wipe the smiles off lots of little faces! Be sure to check out the special FaceBall 2000 “Have a Nice Day” contest on page 66. Everybody can win this one!

HASTA LA VISTA, BABY

I think a great Game Link match would be Arnold Schwarzenegger and me playing Fortified Zone. Arnold would probably like the shoot-em-up because of his action roles in the Predator and the Terminator films. I would let him win though, because if he lost he would probably crush the Game Boy in one hand and my face in the other!

Cory Barack
Neffs, OH

A NATURAL LINK

I would like to Game Link with Link. We could fight together and destroy everything that we could shake a sword at, and we would take shifts to beat the Darknuts. When we saved Princess Zelda, we would celebrate our victory with Pepsi and chips, then we would split up the jewels.

Michael Sanders
Prestonsburg, KY

CAN HE REALLY CRUISE?

If I could Game Link with a celebrity it would be Tom Cruise. He's a great actor, but I wonder how good he really is at playing Days of Thunder!

Brandon Lee
Batesville, AR

GIVE HIM SOME AIR TIME

My Game Boy Dream Link would be to play One-on-One with Michael Jordan in LJN's NBA All-Star Challenge. It's right after the last game of the NBA's Final Four. Jordan is in the locker room playing NBA Challenge to relax, and I walk in and ask him if to autograph my copy of the game. He says, "sure" then, "How about a couple of games?" We play four quarters of super Game Boy action. When it is all over, Michael says, "Next time, Aaron, I'm going to win!"

Aaron Reitmeier
Crookston, MN

BUMPERCARS WITH BILL

I read your request for Game Boy Dream Links in the last issue and decided to send mine. My dream is taking the NASCAR Challenge with Bill Elliott. The man says, "Start your engines!" The engines roar, we take a few warm-up laps, then the pace car ducks out and the race begins. I race nose and nose with Elliott for 99 of the 103 laps in the race, then he crashes into me. I make an outstanding recovery, everyone starts to scream, and I actually win!

Alan Fowler
Utica, NY

BO KNOWS HOW TO

In my Game Link fantasy, I dream about pitching to Bo Jackson in Bo Jackson's Hit and Run. It's the bottom of the ninth, there are two out, and the count is three and two. My team is leading when Bo steps up to the plate. The bases are loaded. Here's the pitch! Bo swings ... and misses! My pitch wins the game.

CONTEST WINNER MEETS NASCAR GREAT

When Lee Mullen was selected as the Player’s Poll Contest grand prize winner for April, he won the trip of a lifetime. The twelve-year-old winner from New Meadows, Idaho, took his whole family to see Bill Elliott and other NASCAR legends mix it up at the Diehard 500 held last July at Alabama’s famous Talladega Super Speedway.

On race day, the Mullens toured the pit area, met Elliott, and got a close look at his car before heading for the stands to watch one of the most exciting races ever held at Talladega. The competition was hot from the first lap to the checkered flag, with drivers running flat out and trading the lead back and forth all afternoon.

The final lap had all 100,000 fans on their feet as Bill Elliott whipped his car out of the slipstream and pulled alongside Dale Earnhardt. The two screamed down the last stretch side by side, but Earnhardt nosed out Elliott for the flag. With a finish as exciting as that, the difference between first and second didn’t matter to Lee and his family, though it probably did to Bill Elliott!

The race capped an exciting weekend for the Mullen family. And when you consider that Lee’s entry almost stayed in his mother’s purse instead of being sent, you realize how lucky he was to win. Lee and his mother thought that a kid from a town as small as New Meadows had little chance of winning a contest, but he wanted to send his poll card in anyway. It’s a good thing that he kept pestering his mother until she mailed it, though, because she almost didn’t! She finally dropped it in the mail to keep him from bugging her about it, and lo and behold, that very card was drawn.

VOLUME 30
Yabba Dabba Doo™! The crazy caveman antics of Fred Flintstone and his modern Stone Age family are on their way to the NES with the same comic fun that made the Flintstones cartoon a TV classic. Fred runs with a fast and funny flurry of feet, smashes zany creatures by swinging a big stone club and climbs the cliffs of Bedrock with kooky cartoon flair. A mad scientist from the 30th Century has pet napped Dino and Hoppy. Now it's up to Fred to piece together the Great Gazoo's time machine and follow the pets into the future.
Our modern Stone Age hero runs through his rocky world with fast feet and a big club. He can jump to avoid quick creatures or knock ‘em with his weapon and collect coins. This prehistoric land is full of foes, so it’ll pay for Fred to stay on his toes.

**Run, Slide, Stop!**
Fred runs through Bedrock with Yabba Dabba Doo style and puts on the brakes with a show-off slide.

**Master Your Tools**
Special tools, like Fred’s stone axe, really help him take on tough characters.

**Bedrock and Beyond**
The pieces of Gazoo’s time machine are all over Fred’s home town and the surrounding area. If Fred can defeat the creatures that guard the machine’s parts, Gazoo will be able to piece the invention together and send Fred to the final stage in the 30th Century.

**Cave**
This maze-like underground stage is populated by creepy creatures and crooks on the lam. Watch it, Fred!

**Under the Sea**
The fiendish fish below Bedrock aim to cut short Fred’s swim to Tea Rock. They’re very tricky.

**Jungle**
Barney’s in the jungle, waiting to give Fred advice on how he can beat a coconut-tossing kook.

**Reef Rock**
This town is tough. Fred’s going to have to watch for crooks and watch his step in the underground.

**Bedrock**
Fred’s town includes wide gaps that he’ll only be able to cross by jumping and grabbing hold on the other side.

**Tea Rock**
This island in the north has a lot of similarities to the Far East. Fred’ll have to combat martial artists here.

**Icy City**
It’s almost impossible for Fred to stop in slippery Ice City. He’ll really have to move quickly.

**Basket Rock**
Courts A, B and C give Fred a chance to show off his Stone Age basketball skills and earn special abilities.
This section of Fred's home town is built on a series of ledges and slopes. If you learn how to grab onto a ledge and pull yourself up right away, you'll be able to make it to the top of a bluff and spring upward to a 1-Up. Grab an axe when you get near the end so that you can battle an awesome, fire-breathing sea monster.

The buildings of Reef Rock are packed with crooks on the run. Find a slingshot and use it to stop those characters before they have a chance to set their aim on you. The building also features trampoline-like awnings. Jump onto them and bounce to high ledges.

Your only transportation across the long expanses of water in this underground lair is a small raft. Try to keep track of it while you're climbing on the higher ledges. If you miss the boat, you'll be stranded.
Knock Out The Monster

With a huge flurry of flames, the monster of Bedrock singes anyone close. Jump out of the way and toss axes in its direction.

Jump out of the way when the monster flames on. Move in and toss a few axes toward the monster.

A tired pterodactyl flies across the ravine. Ride on its log, then jump.

Slide 'til you reach the bottom of this slope, then jump before you fall.

Since you don't have the wings yet, you'll have to go below in order to cross this barrier.

Drop down and work your way to the other side.

An Axe For An Axe

When you catch up with Wilma, she'll give you an axe. Use it to fight off the attacks of the axe-wielding caveman at the end of the stage.

Toss the axe toward the caveman. Run under the caveman when he jumps.
There are three Basket Rock courts in the vicinity of Bedrock. When you beat the king of the courts at his own game, he'll reward you with a special item. You've only got a minute to show him your stuff. Stay close on defense and try to break away clean when you have the ball. Then toss it in!

Don't even think about trying to stop cold in the frozen tundra of Icy City. If you put on the brakes, you'll skid halfway to the tropics. Just keep moving, jump quickly and try to stay warm. If you've earned the ability to fly, it'll really be useful.

Enemies are waiting on the right side of the first two ledges. Jump above them to avoid contact.

Jump quickly across the icy, narrow platforms and try to hit the Power-Up producing barrel as you pass it.

Don't stop. Just jump. If you make your way to the right side of this section, you'll be able to collect a 1-Up.
There are only three courts and no rematches. In order to earn all of the items, you'll have to win all of the matches.

**Court A**
Win the first match and you'll be able to call on a kangaroo for super high jumps.

**Court B**
With a victory in Court B, you'll be able to strap on wings and take to the sky.

**Court C**
Beat the pro in Court C and he'll hand over a complete set of diving equipment.

---

**Out-Move The Mammoth**
It's impossible to jump over the charging mammoth without getting hit. Make sure that you're powered up. Then quickly club it.

- Power up your swing as the mammoth approaches.
- When the mammoth is within range, let him have it.

---

- Jump when the first rotating platform is just below. Then hang on!
- Walk off the first platform as the second one passes by.
- Jump lightly and grab onto the third rotating platform.
- You should have no problem in clearing the low spikes here. Just run, duck and slide on the ice to the other side.
Barney has been fighting through this dense area in search of a piece of the time machine. Pick up where he left off and take his advice on how to defeat the coconut-tossing creep at the end. You'll come across many tricky jumps on your way through the jungle. Be careful as you go.

If you don't make it all the way across this expanse by jumping on the logs up top, you can still land safely and jump on the rocks below.

Hop quickly across the logs here or you'll only be able to save yourself by flying.

The many passages of this cavern maze are populated by skeletons, bats, escaped crooks and a mysterious vampire. Work your way through the passages, collect as many Power-Up items as you can find and make sure that you accumulate plenty of coins so that you can fly out of a difficult vertical chamber.

Use a slingshot to surprise the crooks in this hallway.

The flooring begins to fall when you touch it. Run across quickly without stopping.

Pull the lever to open the door and run through before it closes.
**Use Your Coconut**

The clown at the end of this stage drops coconuts in an attempt to bowl you over. Hit them with your club and send them back.

- **Watch out for falling coconuts.**
- **Send the coconuts back and knock out the enemy.**

**Beat On The Bat**

The vampire of the cave releases bats, then flies to a new perch when you hit him. Wait until the club is at full power and swing when you've got a good shot.

- **Avoid the bats and wait 'til your club is at full power.**
- **Let the vampire have it when he gets into your range.**

As soon as you enter this chamber, it begins to fill up with red hot lava. If you have at least 50 coins and the wings, you can fly to safety.

- **The big green meany that haunts this area is very strong. Just jump over him and keep moving.**

---

**To C**

**To D**
If you didn’t win the last Basket Rock challenge for the diving gear, you’ll have a hard time getting through this underwater area. You can use the gear to float safely over bottomless crevices and under dangerous spikes. Without it, you’ll have to make long jumps and ride fast-moving bubbles.

The Tea Rock area is very similar to Ancient Asia. Watch carefully for masters of the martial arts and hit them with your club before they hit you with their fists. The Sumo Dino at the end is very tough.

After you’ve collected the last piece of Gazoo’s amazing time machine, he’ll send you centuries into the future so that you can fight through one last stage and save your helpless pets. When you zap ahead to the 30th Century, you’ll meet George Jetson and he’ll clue you in on Dr. Butler.
Defeat The Dino

The Sumo Dino is sturdy and a strong fighter. You’ll only stand a chance by fighting with quick and powerful swings.

Avoid the strong wrestling dinosaur as you power your club. When your club is at full strength, hit the dinosaur with all of your power.

The insidious Dr. Butler is holed up in his high-tech laboratory. Use your Stone Age tools to scrap his Space Age inventions and continue your search for Dino and Hoppy.

That's right. You're history.
Exit Gate Bonus

If you carry a P-Switch or a Shell through an Exit Gate, it will turn into one of four different Power-Up items. What the P-Switch or Shell turns into depends on Mario's condition and what Power-Up item is in the Item Reserve Box. The table below shows how you can figure out what will appear.

**Alien Change**

Since the Alien has total control of the dart in flight (as described in the previous tip), you'll have no trouble in making it throw a dart that hits the fly buzzing around the dart board. Once it successfully tags the insect, the Alien will undergo a transformation. Weird!

**Commercial Break**

If you’re in the middle of an action-packed episode of this cat-chases-dog adventure and you’re in need of a special weapon, you can break from the episode instantly with a quick code. Just press the Start Button to pause the game, then press the A Button three times. You’ll go back to the channel select screen where you’ll be able to tune-in to the shopping channel and buy items or play a bonus game to earn some cash!
**From Agent #672**

**Bonus Stages**

Daredevil landings in three of the events of this flight simulation game will net you a lot of points and a chance to participate in three other fun flights. In the parachuting event, there is a platform that moves back and forth in a body of water next to the bullseye. Land safely on it and you’ll earn 100 points, plus you’ll be sent to a bonus stage where you control the flight of a diving penguin as it plummets toward a pool! When you strap on the Rocketbelt, you’ll take off from a moving platform in the water. Carry out the tasks of the event, then land on the same platform. You’ll earn 100 points for the landing and you’ll go to a bonus stage where you’ll attempt to bounce off several trampoline-like platforms and cross great expanses of water. If you master the hang gliding event and land on a platform in the water, you’ll again earn 100 points and find yourself in another bonus stage where you’ll strap on wings and try to fly with them for as long as possible.

**Rocketbelt Bounce**

Normally, if you land on the ground in the middle of the Rocketbelt event, you’ll be docked two points. Our agents have discovered though, that you can touch down on the white domes that are littered throughout the field and bounce back into the air without losing any points.

**From Agent #689**

**Extra Fighters Plus**

Before you begin your mission through Metro City in this action-packed street fighter, you can make the going a little less tough by increasing the number of fighters in reserve and adjusting the difficulty levels. On the title screen, press and hold the L Button, then press the Start Button. The “Option Mode” screen will appear, listing several programming features. Press Up and Down on the Control Pad to highlight the options and press the X Button to change the settings. Lower difficulty settings will make the game easier and additional players adds to your fighters in reserve. The extend option adjusts 1-Up awards for points earned. If you want to sample the 19 pieces of music and 53 sound effects, you can activate them by pressing the R Button when they’re selected.
**From Agent #312**

**Konami Code Revised**

In the original Gradius game for the NES and several other games from Konami, there is a particular code which rewards the player with special bonuses when it is keyed in at a certain point. Since Gradius III is now available for the Super NES, and since the Super NES controller includes more buttons than the NES controller, the Konami programmers have worked out a slight variation of their classic code. While you're piloting the Vic Viper through space, pause the game by pressing the Start Button. Then press Up and Down on the Control Pad and the L and R buttons on the top and B and A Buttons in the following sequence: Up, Up, Down, Down, L, R, L, R, B, A. When you resume play, your ship will be equipped with Missiles, a Force Field, Options and extra speed. You'll be able to activate this code once for every stage that you have been to. If you try the original Konami Code (Up, Up, Down, Down, Left, Right, Left, Right, B, A), your ship will self-destruct!

**Ships-A-Plenty**

Our agents have uncovered a quick and easy code that multiplies your ships in reserve nearly ten fold. On the title screen, press and hold Left on the Control Pad and press the A Button three times. Then press the Start Button. When you begin racing through space, you'll have a reserve of 29 ships!

**Credit Increase**

When you start the game, you have four Credits which allow you to play the game once, then continue three times. You can extend the number of Credits by pressing the X Button quickly and repeatedly while the title screen is showing. When the title screen disappears, though, the number of credits will go back to four. Make sure that you press the Start Button to begin before this happens. Our agents have discovered that they can work up to about 7 Credits in the few seconds that the title screen appears.

**Random Weapons**

If you can't decide which weapons to equip your ship with, you can command the computer to select your weapons randomly. On the individual Weapon Select screen (also known as the Edit Mode), press the X and Y Buttons in the following sequence: X, Y, X, Y, X, Y. Each of the weapons will be automatically selected.

Press the X Button quickly to add to your chances to continue.

When the R. Option is activated and the option selection is highlighted, you can press the A Button to spread the shields.

Much of the tale unfolds in scenes in which on-screen characters talk to each other, fight, or stab each other in the back. The twisting plot begins with an elite Red Wing airship commander—you—stealing magical crystals for the King of Baron.

The opening scenes show Cecil, the Red Wing commander, stealing a Crystal from the town of Mysidia. Neither Cecil nor his crew know the purpose of the Crystal, just that the King gave his order. Through this prologue to the game, the player learns about the airships, Crystals, battles and dialogue. In fact, throughout the game, new features are introduced by characters making FFH super player-friendly.

The Red Wing squadron is the key to Baron’s power in the world of Final Fantasy II.

The King of Baron strips Cecil of his command when Cecil questions the necessity of stealing Crystals. He is sent to deliver a package to the town of Mist, accompanied by Kain—a Dragoon and supporter. Lately, monsters have been increasing along the road to Mist.

Kain, a member of the King’s Guard, will help Cecil in his quest. But where do Kain’s true loyalties lie— with Cecil or the King, or to some other power?

When fighting with Kain, use the Jump Attack. The Dragoon leaps so high that he misses a round of fighting before delivering a kick.

Cecil’s strongest attack is with a sword. When he becomes a Paladin later in the game, he can also use White Magic.
THE FIRES OF MIST

Through a foggy cave the two outcasts search for the correct path to Mist. A Mist Dragon blocks the route, but not for long.

THE MISTY CAVE

North of Baron is the entrance to the Cave of Mist. Here you'll meet the first real taste of battle. If you reach Mist, a surprise awaits you!

THE MIST DRAGON

When the Mist Dragon becomes a mist, do not attack it. Use the Parry command or refill your Hit Points.

THE FLAME UNLEASHED

Upon reaching Mist, the package that the King gave you suddenly opens, freeing a host of flame monsters who torch the town. There is only one survivor—tiny Rydia, who has lost her mother.

STRENGTHS

The Call Attack summons strong creatures who will fight for Rydia. This is her strongest attack, but she also learns useful Black Magic spells.

ONE NIGHT IN KAIFO

Cecil carries Rydia to the town of Kaipo and takes her to the Inn. That night, a squad of Red Wings attack their old commander. Defeat them and Rydia will join you.

REAL-TIME BATTLES

Battles in FFII are more interesting than in previous RPGs. First, you must make snap decisions. The enemies don't wait for you to make up your mind. Second, you place your party members either in the front line or in a back-up position where they'll take less damage depending on their strengths.

STANDARD

As soon as the enemies appear, size up the situation and form a battle plan.

The most agile party member has first choice of attack. Most often that will be Cecil.

While the first character is making his attack, you'll be choosing a response for the next character.

BACK ATTACK

The Change command lets you switch your front and rear lines in case of a Back Attack.

If the foes are too tough, or you're in a hurry, push the Left and Right Buttons simultaneously and run away.
**E BARD AND THE BEAST**

From the Cave of the Watery Pass where Tellah joins the party, you’ll move on to Damcyan, then to the Antlion’s Cave.

**THE WATERY PASS**

Tellah is following after Anna, who ran off with a bard, but first he must get through the Watery Pass. His Lightning spells will work wonders against the aquatic creatures, including Octomamm at the end.

**THE RUINS OF DAMCYAN**

Beyond the Watery Pass is the castle of Damcyan, but by the time you reach it, the place is a smoldering ruins. Here you’ll find Anna and her lover.

**PRINCE EDWARD**

Prince Edward fled with Anna only to find greater danger ahead. He is not the strongest of fighters, but he has mystical abilities.

**SAGE TELLAH**

Tellah is a great magic user. He specializes in both White and Black Magic, but he has forgotten many spells.

**OCTOMAMM**

Octomamm’s eight tentacles must be destroyed by your party. Use Tellah’s Lightning spells, Rydia’s Chocobo and Cecil’s regular attack.

**ROSA’S RUBY**

Rosa returns when you’re in Kaipo, but she is deathly ill. The only remedy is to bring her the Sand Ruby from the Antlion Cave.
Your party must venture from the depths of the Antlion Cave, across the wintery summit of Mt. Hobs to the Castle of Fabul.

**IN THE CAVE OF THE ANTION**

Use the Hovercraft to cross the shallows and reach the Antlion Cave east of Damcyan. On the bottom level is the Sand Ruby and the Antlion.

**THE ANTION**

The Antlion was once tame, but as Edward soon discovers, it now is a fearsome enemy.

Rydia’s Chocobo and Edward’s singing will help defeat the creature.

You’ll face many battles in the cave. Put Rydia and Edward in the rear for safety.

The Antlion’s prize—the Sand Ruby—is the only hope for Rosa. Return with it to Kaipo.

**ROSA IS SAVED**

Use the Hovercraft to return quickly to Kaipo. Give the Sand Ruby to Rosa and she’ll recover. Now she can join the party and use her powerful spells of White Magic.

The Sand Ruby performs a miracle.

**THE WAY OF MAGIC**

Magic is a key element of FFII. White Magic is defensive. Black Magic is offensive. Some of the spells are just for fun.

**BLACK MAGIC**

Not all Black Magic spells are effective against all creatures. For instance, use Fire spells against ice creatures and Ice spells against fire creatures.

**WHITE MAGIC**

White Magic is used to refill lost HP and MP and to protect members of your party. Some spells will also limit the spells that enemies can cast on your party.

**LIGHTNING**

Lightning spells are best used when fighting enemies in water.

**FIRE**

Use Fire spells against creatures of ice and against undead monsters.

**ICE**

Creatures of fire have a weakness when it comes to Ice spells.

**PIGGY**

This whimsical spell turns friends or enemies into pigs who cannot fight.

**WALL**

Spells such as WALL are protective spells. They keep your party members safe from attack or enemy spells. WALL reflects magic so the effect falls elsewhere.

**CURE2**

This powerful spell will restore HP and some MP. Only use it if a character needs to have more than 200 HP restored. If less HP is needed, use CURE1.

**SLOW**

The SLOW spell slows down time for an enemy, which means that they attack less frequently and are therefore easier targets for your fighting party members.

**EXIT**

The EXIT spell will transport the entire party out of the depths of a dungeon, tower or cave, but there are restrictions. It won’t work from interior rooms.
In an attempt to stop the spread of evil, Cecil and his party decide to move on to Fabul to protect the Crystal of Air. Their path leads over Mt. Hobs where they will meet Yang.

**THE FATE OF FABUL**

The Mom Bomb changes form from a small foe to a huge fiery creature to a ring of smaller beings. In spite of its fearsome appearances, the Mom Bomb is easy to destroy.

The big Mom Bomb uses an explosive attack against the entire party.

The ring of enemies must be completely destroyed, one by one.

Beyond Mt. Hobs the party reaches Fabul, Yang’s home. There they tell the King that a mastermind named Golbez is plotting to take his Crystal.

**RED WING RETURNS**

Yang was the commander of the Karate Masters of Fabul, but during a training exercise on Mt. Hobs his squad was attacked. Now only he remains to help you and your party.

**THE FACE OF GOLBEZ**

There is no denying the force of the Red Wings. In the end, Golbez appears, as does a traitor from earlier in the game. The Crystal is taken, and Rosa is held captive.

While returning to Baron, the party’s luck runs out when Leviatan attacks their ship.

**CALL MAGIC**

Rydia’s Call magic is a summoning spell to powerful beasts like the Chocobo and Titan. Once a creature is called, it will fight for your party.

**STRENGTHS**

Yang’s Kick Attack is his most useful weapon. The Kick strikes all enemies at the same time. His regular attack is strengthened by the Hand Claw.

**The plot continues to twist as you wake up alone on a deserted ocean shore.**
STRENGTHS

Palom is a master of Black Magic, but his real strength is the TWIN spell that he casts with his twin sister.

**BLACK WIZARD PALOM**

**WHITE WIZARD POROM**

The twin wizards are really just children, but in spite of their childish antics, they are valuable and loyal companions for your assault on Mt. Ordeals where you must now go.

STRENGTHS

Porom is a White Wizard, but like her brother, her real strength lies in the use of TWIN, which is a powerful attack spell.

QUEST OF THE PALADIN

To appease the Mysidians, you must face a great ordeal.

**ALONE AGAIN**

Following the attack by the sea serpent, Cecil finds himself washed ashore near the town of Mysidia. In town, the Elder assigns the twins to keep Cecil company on a quest to Mt. Ordeals.

By becoming a Paladin, you will prove your worth to the Elder.

By becoming a Paladin, you will prove your worth to the Elder.

**THE EARTH FIEND**

Meanwhile, back in Golbez’s mysterious tower, Milon the Fiend of the Earth, is commanded to stop Cecil from becoming a Paladin. Milon brings an army of undead creatures with him, but he will certainly enter the fray himself. If you win, return to Mysidia.

**TELLAH RETURNS**

High on Mt. Ordeals an old friend turns up when least expected. Tellah the Sage, who has been seeking Golbez on his own, now joins the team. You’ll need him when you take on the undead monsters that Golbez has placed before you.

Tellah appears on Mt. Ordeals and joins the party along with Palom and Porom.

**BACK TO BARON**

A secret path leads from Mysidia to the Town of Baron. When Cecil returns as the Paladin, the Elder tells him of the road. After buying the Paladin armor, Cecil and his cohorts travel to Baron. There they find Yang and a cold reception.

Things are not well in Baron. The people speak of Cid, the chief engineer of the airships, having been thrown in jail.

Defeat Yang and he’ll be his old self again. He’ll give you a key to a secret passage.
THE SECRET PATH

The Old Waterway beneath the Castle of Baron is the only way to get inside for Cecil and his crew. Monsters attack constantly. Use the Saving Site at the end.

UP AND AWAY

Before you can meet Cid and get an airship, you must defeat the Fiend of Water who is disguised as the King. The cost of victory may seem very high.

ANOTHER CRYSTAL

Once Kainazzo is defeated, Cid appears and joins the party. The new plan is to find the last Crystal, which is said to be in Toroian Castle, before Golbez. If they get the Crystal they can exchange it for Rosa, or so they hope.

THE DARK ELF

The Dark Elf loses his advantage when Edward plays the Twin Harp, because Cecil can now use his sword, which didn’t work earlier in Cave Magnes.

THE BARD RETURNS

In Toroian you’ll find Edward, who is in a bad way since being washed off the ship during the sea serpent’s attack. You’ll learn that the Crystal is held by the Dark Elf.

A FIEND OF WATER

Kainazzo uses a Wave Attack, then hides in his shell. Don’t attack him when he’s in the shell. Use that time to recover lost HP.
The Dark Elf is hidden in the deepest chamber of Cave Magnes with the final Crystal. After defeating him, you’ll journey back to Toroian then on to the Tower of Zot to meet Golbez.

THE HOSTAGE DEAL

The Tower of Zot has six floors, each one guarded by the armies of Golbez. Before you reach the evil mastermind, however, prepare to battle the three Magus Sisters and their devastating Delta Attack.

Another airship appears as you are about to take off from Toroian, Kain is the captain.

After returning the Crystal, explore Toroian Castle and collect the treasures in the basement.

Freed from Golbez's spell, Kain will rejoin Cecil's party.

The Tower of Zot is a high-tech palace with winding corridors and dead ends.

THE WELL OF AGART

Four Crystals are held by Golbez, but there are rumors of Dark Crystals hidden underground. A new quest begins below.

Throw the Magma key into the well in Agart.

The airship vanishes into the crater.

CHOCOBOS

Chocobos are remarkable birds. Some carry you through foe-filled forests while others fly you to important destinations. Rydia can control Chocobos and use them for fighting. Other Chocobos refill magic or store items.

Chocobos look friendly and they are, which has led to the saying in the world of FFII that a Chocobo is a hero's best friend.

The Yellow Chocobo acts as a monster repellant. If you have one of these special birds, you can wander far afield in safety.

The Black Chocobo carries you in flight, but unlike the airship, it lands only in forests. Look for Chocobos in circular woods.

The White Chocobo is a welcome find. They refill magic user's MP so you can save expensive Ether potions for desperate times.

The Fat Chocobo has room to spare. If your item screen is getting too crowded, a Fat Chocobo can help by storing the excess items.

LEGALITY CONTROL

In FFII you can save four games, change names, and even customize screen colors, battle speed and message speed.

- SAVING
  You can save four adventures simultaneously on this Battery Pak, and saving is easier than ever. Even inside caves and towers there are special rooms where you can save your progress. Normally you save while in the overworld.

- PASSAGES
  Look for hidden passages everywhere. Sometimes a trigger in the floor or wall will open a door. Other times you must walk through walls. In some areas, enter dark channels between rooms.
Cid is the master of the airships, and you'll need to find him if you want an airship with which to on Golbez and the Red Wings.

**STRENGTHS**

Cid's unique skill is that he can PEEP at enemies to determine their weaknesses. He can also fight using a bow and arrows.

---

**BAIGAN**

Although Baigan wants to join your party, the twins smell a rat. He becomes a hideous monster and attacks.

---

**UP AND AWAY**

THREE SISTERS

Concentrate your attack on the large, middle Magus Sister and protect your party with WALL.

VALVALIS’ Tornado

Getting out of the Tower of Zot is not going to be easy. First you must defeat Valvalis, Fiend of the Air. Her Tornado Attack is awesome, but now that Kain has rejoined the party, you can defeat it using Kain’s jump.

Valvalis’ Tornado

Kain is the key to defeating Valvalis.

The Dwarves welcome you to their subterranean realm where Golbez has been wreaking havoc. Two of the Dark Crystals are safe, but the Red Wings are attacking.

**THE DWARF CASTLE**

Not all is well in the Dwarf Castle. The Dwarf Tanks are hard pressed by the Red Wings. King Giott has only two remaining Dark Crystals, and the dancing dolls called Calbrena will test your party's strength. Cid leaves to repair the Enterprise, further limiting your resources.

Talk to the King of the Dwarves to learn about the locations of the remaining Dark Crystals.

Battle the Calbrena. First, there are many dolls, but they combine to form one monster cuple doll!

Golbez has infiltrated even here at the heart of the Dwarf Kingdom. Luckily, help comes from Rydia.

**ONE CRYSTAL TO SAVE**

Your task now is to save the last remaining Dark Crystal before it falls into the hands of Golbez. You'll hear about the secret of the Tower of Bab-il and go to see if it is true. It won't be easy breaking into the tower, but your Dwarf friends can help you by using their Tanks.

The Dwarves will draw attention from your party with the Battle Tank so you can enter the Tower of Bab-il without being blasted by the Super Cannon.

Inside the Tower you'll have to climb ever upwards. There are eight floors of strong monsters.

Master Rubicant leaves Dr. Lugae in charge. You'll have to fight his weird creations.

Rubicant is the last of the four fiends, but he isn't the final foe by far.

What lies ahead for Cecil and his cohorts? More excitement, for sure, and surprises. Is Kain really himself? Are there Mysidians on the Moon? Only you can answer these questions.

A new airship awaits your party if you survive the Tower of Bab-il.

**RUBICANT AWAITS**

Northeast of the Dwarf Castle is a sealed cave where the final Crystal is hidden. You will meet a new ally—a great ninja named Edge—and a new foe, Rubicant, the fourth fiend in Golbez's service.

As you can see, the world of Final Fantasy II is vast and ever-changing. The party you use in your quest changes rapidly, requiring new tactics and strategies in battle. There are mysteries, legends, acts of bravery and betrayal, action from the earth to the moon—everything you would expect from a great adventure movie. The difference here is that you direct the story.

The Butter Bridge to Ludwig's Castle is one of the toughest in the game. Bring Yoshi and make sure Mario has a Cape. Take the Cheese Bridge for an easier route.

Mario and Yoshi are ready to make the leap to the third piston lift. Their take-off position is critical. Yoshi is as far to the right of the lift as he can be.

Throw the switch in the Red Switch Palace to make this row of blocks solid, but if the red blocks are hollow, bounce off the backs of the parade of Paratroopas.

This lift is so high above its neighbors that if you jump early, you'll have nothing on which to land. Let Mario's weight carry him down close to the lower lift.

The Paratroopas can be a big help in this area. When the distance between lifts and platforms is too great, jump to the back of a Paratroop, then to your goal.

Throw the switch in the Red Switch Palace to make this row of blocks solid, but if the red blocks are hollow, bounce off the backs of the parade of Paratroopas.

The final jump is another difficult one. The Paratroopas are in a good position to lend a hand, or a back. Jump onto a Paratroop then hop off onto solid ground.
Underwater worlds can be the toughest because they require new strategies and controller techniques. Filled with Torpedo Teds, Soda Lake is a real bruiser. To stay clear of enemies, Mario should swim along the edges of the screen—top or bottom—even if you can’t see all of him. Near the end of the lake is a reef Mario can swim beneath to avoid the Torpedo Teds.

By swimming half off the screen, Mario is safe, either at the top or bottom of the lake. When you meet obstacles, switch to the opposite side of the screen.

Here Mario is forced into the middle of the lake. Wait for the Cheep Cheeps to pass, then drop down and swim to the right and up before passing under the reef.

Three Torpedo Ted launchers are stacked against you near the end. Swim below the reef to avoid them. Although Mario is invisible, the screen keeps scrolling.

HOW CAN A TOAD LEAP AND LIVE IN THE TURBO TUNNEL?

Down here the heat is on high and one bad hop will cook a Toad faster than you can say Battletoast. The problem a lot of Toads have is jumping from the wrong spot and winding up in the soup. Appearances can be deceptive. You have to be right down next to the lava if you want to reach the next island. If you jump from the top of the island, you won’t make it.

This might look like a good jumping off point, but it isn’t. Toads just can’t go the distance here.

Although it doesn’t look like much of a ledge, hop down near the lava. Now you can make the jump.

The shortest distance is to jump from the low ledge of one island to the low ledge of the next.

THE LEGEND OF ZELDA

Link's final task is to defeat Ganon in his Death Mountain lair. Two weapons are required for the coup de grace—the Magic Sword and the Silver Arrow. The Red Ring, also found in this level, is useful as it boosts your defensive power. Take the secret passages to Ganon's chamber, which is the room directly below the left blank spot on your game screen map. Hit Ganon three times with the sword to make him remain visible, then shoot him with the Silver Arrow.

METAL GEAR

After collecting the eight cards, your mission is to knock out the Super Computer. To get Dr. Pettrovich's help you must rescue Ellen. She is in the building where you were taken earlier in the game. Punch walls inside to find her. Now visit the Doctor. He is in the room to the left of where you got the Flashlight. He tells you that you'll need 16 plastic explosives to destroy the Super Computer. Only after he tells you this about the Super Computer, can you actually blow it up.

Knowing how to pass through the Maze Zones is essential. Take the Lower Maze Zone to find the building where Ellen is held using the route: left, left, upper left, and left. Reach the Doc through the Upper Maze Zone as follows: lower left, lower left, up, and lower left.
DESTINY OF AN EMPEROR

Get Zhu Ge Liang by Level 17 to build up his Tactic Points. Save the game before point increases. If the increase is low, try again. Enter the final battle with extra Power Pills and over 100 Tactic Points. Zhu Ge Liang heads the party with Jiang Wei as the tactician. First, use the Ji Mian spell. Next, use An Sha, except not on Si Ma Yi. The Power Pills boost your hitting strength versus Si Ma Yi. With luck, you’ll defeat him with Wan Fu before he restores his forces.

THE SIMPSONS: BART VS. THE SPACE MUTANTS

Stuck in a museum with a bunch of statues carved by dead Egyptian dudes? Don’t have a cow. Have Bart jump onto the ledge of one of the statues and jump up and hit its head. An ankh symbol appears. Grab six of them then jump to the column that has risen from the floor to ride out the earthquake.

After dodging a hail of stones back in the museum hall with the statues, you can move on. When you do, chances are you’ll jump into the tar pit and lose a Bart. The trick here is to jump from the upper ledge, even though it looks like part of the background and not something you can stand on. The first jump is the critical one. After that, just keep hopping.

HOW DO I DEFEAT SI MA YI?

Si Ma Yi is tough, but he can be beaten. Mass Tactic Points and Power Pills prove the winning combination for Zhu Ge Liang.

HOW DOES BART GET PAST THE STATUES AND THE TAR PITS?

The trick here is to jump from the upper ledge, even though it looks like part of the background and not something you can stand on. The first jump is the critical one. Konami brings famous villain Carmen Sandiego and her 15 V.I.L.E. henchmen to the NES in a special new package that includes a vital weapon: The New American Desk Encyclopedia. In a time machine, Carmen and cohorts are cruising through history causing trouble. Use the encyclopedia to track her down.

Savvy sleuths learn what they can about the criminal mind. Over the years, time patrollers have collected tidbits of information about the crooks they've encountered. Get the M.O. of Carmen's V.I.L.E. bunch by studying their dossiers. Knowing what makes them tick can lead to a speedy arrest.

It All Adds Up

Sometimes witnesses and informants pass on clues that will help you identify the person who perpetrated the crime. Be sure to record the tips in your evidence file. When you've collected enough information, you can compute, or compare, the file to the dossiers and pick the thief out of the lineup.

The witness has more to tell you. He noticed that she had hazel colored eyes. Who might that be?

Compute the information. When you identify Sharon Sharalike as the perp, the Capture Robot activates.
CHINA 1044 A.D.
Which mobster are you pursuing? And where are you headed? You won't know until you talk to witnesses and informants. If you're observant, you'll get the hints and follow the right track. Take notes! Your trail starts at the scene of the crime, China, in 1044 A.D.

U.S.A. 1778 A.D.
Turn the clock forward to Jefferson's time period, then head for the U.S. and the year 1778. Find out what notable events are taking place, then search for more information.

HOLLAND 1920 A.D.
You will arrive in Holland with 25 hours remaining. During the 20th Century, Holland is a constitutional monarchy. A witness here will drop some important hints. Don't miss them!

Evidence Update
The witness also drops a hint about Thomas Jefferson, so go to the U.S. next. When you search you use valuable time, so don't ask any more questions! Update your evidence file and compute the data as soon as you have enough info to issue a warrant for the crook.

Evidence Update
So far you've found out that the thief is a gray-eyed male who likes a book by Rudyard Kipling. Sometimes the computer can identify the criminal with three pieces of information, other times it can't.

Evidence Update
The evidence points to that terrible twosome, Lee and Bill Ding. A warrant is issued, the Capture Robot activated. You're ready to make an arrest.
AMERICA 1611 A.D.

In the early 17th Century, Henry Hudson discovered the river and bay named for him. The Ding Bros. really had nothing to do with it, but they wanted to go along for the ride.

When you talk to the witness, it whittles your time to 18 hours. He tells you that the Dings are likely to be on their way to see the Goddess of Pulque. Where does she live?

MEXICO 1000 A.D.

You've arrived in ancient Mexico at the pyramids of Aztec gods. What kind of trouble can Lee and Bill be up to here? The trail seems to be hot here. They can't be far ahead.

Your first Search reveals that they are, indeed, here! They are apparently hiding, though, so you'll have to Search more thoroughly to uncover the time tripping two-some.

Corner the Creeps

Because you've followed the right trail, you're about to bust the bad guys. And you even have time to spare! That will impress the Chief and other time patrollers.

The Capture Robot activates automatically and homes in on the Dings. While holding them in its powerful beam, the Capture Robot runs an I.D. check, just to verify that you've picked up the right pair.

You have indeed tracked down a dangerous duo. The Capture Robot then checks to make certain that you have filed all of the necessary paperwork. It's a good thing that you took the time to obtain a warrant.

Congratulations! You've cracked a tough case. These two are as crooked as the day is long—and days can last for centuries when you're time traveling! They'll be behind bars for who knows how long.

The Wrong Turn

If you hadn't been so clever, the case might have gone unsolved. Going to the wrong place, for example, is costly.

Further investigation pays off! You're right on target.

Time's Up!

If you can't collar the criminal in the allotted time, the case goes unsolved and the thief goes free.

Uh oh, the Chief is calling. Bad news—time's up!

Because you blew it, the thief gets off scot-free.
Ultimate Air Combat from Activision for the NES gives you the chance to fly tactical air missions with a surprising amount of reality. On the way to the target you’ll engage enemy fighters in a fierce dogfight. After destroying the bogeys, close in on heavily defended positions and make precision bombing runs on bridges, bunkers, ships, and other vital military targets. The enemy is a notorious dictator whose aggression against his neighbors forces the President of the United States to send America’s finest pilot to make surgical strikes. This is more than a flight simulator. From actual armaments to realistic scenarios, not to mention handy password codes, UAC has the right stuff.

In the Introduction option at the start of the game you’ll get a behind-the-scenes glimpse of a White House briefing. Admiral Cliff Stormdrane tells the President about a conflict brewing overseas. General Don Gwano, a ruthless dictator, has financed an awesome military machine with his oil revenues. Now he is attacking neighboring countries. The Admiral’s plan is to send in a crack pilot with the best hardware available. The briefing also includes an overview of the three jets that the pilot can use. The President agrees with the plan and you receive your orders.
When you reach the Flight Deck you’ll have to choose between the three Navy jets available. All of the aircraft handle about the same, but each one carries specialized missiles. If you crash and burn, you’ll have two more chances to complete the mission. Not only do you decide what plane to fly, you also choose the weapons that you take into combat. A description of each missile appears when you select it.

### FA-18 HORNET
- **Fuel Tank**: Extra fuel allows for longer dogfights.
- **Harpone**: This Air-to-Ship missile tears through steel hulls.
- **Rockeye**: The Rockeye works well against large ground targets.
- **Sparrow**: An Air-to-Air missile requiring a long radar track.
- **Sidewinder**: The heat-seeking Sidewinder has a limited range.

### AV-8 HARRIER
- **Fuel Tank**: Leave the extra fuel tank and load extra missiles.
- **Harpone**: Small impact cluster bombs for precision strikes.
- **Sea Eagle**: The British Sea Eagle is a powerful ship-killer.
- **Asraam**: This Air-to-Air missile tracks great for close combat.
- **Sidewinder**: Three Sidewinders can be loaded on each point rack.

### F-14 TOMCAT
- **Fuel Tank**: You never know how long an engagement will last.
- **As-x-10**: A modified Soviet Air-to-Ground missile.
- **Phoenix**: Perhaps the best Air-to-Air missile available.
- **Sparrow**: Ace pilots may enjoy the challenge of this missile.
- **Sidewinder**: The Sidewinder is standard equipment in the Navy.

### SCRAMBLE!
After loading up for the mission—matching weapons to the type of target—you’ll receive the scramble call. Your jet catapults off the deck of the carrier, or lifts vertically if you’re piloting a Harrier, and the view changes to inside the cockpit. Before the first bogeys appear, glance quickly over the flight instruments, paying close attention to the Radar Screen, Missile Selector and Altitude Gauge. The controller works just like the stick on a fighter jet. Push forward to dive and pull back to climb. These planes are super maneuverable, but they do have altitude limits and you can’t control your speed. Destroy three bogeys then move on to the target.

### AUTO ARM
The Auto Arm feature automatically chooses the appropriate weapons for a mission. If you don’t have a favorite missile, this is the quick and easy choice, but it may not be as effective.
The bogeys come in fast and furious, but you have a lot of fire power. Watch the heads-up display for missile lock or listen for the computer voice that shouts “Fire!” The missiles are much more effective than guns. Get the bogeys off your tail.

**WARNING LIGHTS**

The idiot lights tell you when some on-board system has been damaged. The warnings are for Altimeter, Missiles, BRN (fire), Fuel, Radar and Stall.

**DUAL FUNCTIONS**

The Damage Display also doubles as an Information Display when you pause the game.

**FUEL GAUGE**

In more green shown, the more fuel you have left.

**RADAR DISPLAY**

Your view always faces up on the radar screen.

**AMMO & CHAFF**

Tells Amo and radar-jamming Chaff amount.

**SPEED & ALTITUDE**

Speed is critical in climbs. Don’t stall out.

**COMPASS HEADING**

This gauge also shows an artificial horizon.

**INSTRUMENTATION**

It’s important to know your instrument panel and to be able to size up your situation in a glance. The panel shown below is for the F-18. Each plane has slight variations in the layout of instruments.

**DOGFIGHTING TACTICS**

The bogeys come in fast and furious, but you have a lot of fire power. Watch the heads-up display for missile lock or listen for the computer voice that shouts “Fire!” The missiles are much more effective than guns. Get the bogeys off your tail.

**POWER-UPS**

Sometimes Power-Up items appear after destroying an enemy target. If you want strict realism, just don’t collect the items. On the other hand, a little extra fuel or damage repairs can be useful after a dogfight. Identify Power-Ups on the radar as a round object.

**BACKDOOR BOGEY**

If bogeys lock onto your tail, the best tactic is to pull through 180 degrees vertical and swoop in behind them. Be prepared to get missile lock as you come around.

**PROCEED TO TARGET**

Once you’ve trashed the interceptors, move on to the main target over land or at sea. For a short time the Damage Display shows you the specific target type—whether it’s a bunker, bridge or some other structure or ship. Then the view changes for the bombing run.
COMMENCE BOMBING RUN

You must bomb specific sites in order to destroy General Gwano's war-fighting capability. The bombing run has an overhead, outside the fighter view with a cross-hair to line up your bombs. The inset gauge displays fuel, the number of remaining targets and a directional arrow pointing to the next target.

VITAL SIGNS

The inset gauge on the screen shows all the essential information you need for a successful bombing run. The arrow points at the closest primary target and the numeral shows how many targets remain. The Fuel Gauge indicates when you're running low.

POWER-UPS

Power-Ups may appear after destroying enemy armor or installations. Extra fuel, bombs or in-flight repairs give you extra time to knock out primary targets or to destroy secondary targets.

Boost Your Score

Although you must take out all the primary targets, you can also destroy anti-aircraft batteries, tanks, bunkers, oil tanks and other military targets for extra points.

MORE MISSIONS

After you complete the first four missions, the Admiral has four more lined up. This time the fighting is even harder. Enemy pilots are more skilled and they launch missiles at you. Use Chaff to throw them off. You'll also fly night missions. New weapons become available the further you progress in the game.

WEAPONS UPGRADES

Top military laboratories in the U.S. have been working overtime to provide you with the latest in super weapons. When you complete a set of four missions, new weapons like an Air-to-Air laser will be available for certain planes.

CAUGHT IN THE FIRE FIGHT

As you destroy more and more of General Gwano's forces, the fighting gets ever more desperate. The dogfights are tougher and there are more targets to hit on the ground, plus tougher anti-aircraft defenses. To completely destroy the General's ambitions will take nerves of steel and maybe a little luck.
This past half-century has been witness to the comical cat 'n mouse antics of Tom, a particularly frazzled feline, and Jerry, his mischievous mouse friend. After starring in more than 200 cartoons, entertaining captivated audiences in over 90 countries and winning eight Academy Awards, this power duo now makes its video game debut in Hi Tech's latest action-packed adventure game, Tom & Jerry. Will all that experience pay off? Don't get yourself caught in a mousetrap—check out our furry friends in the most exciting Tom & Jerry appearance yet!
So, you may ask yourself, what are our fun-loving pals really like? Read on for the whole scoop on our cast.

**TOM**

Tom is your ordinary gray and white house cat, and a proud one at that! He can be frequently found napping on the job and therefore regularly becomes a prime target for Jerry’s practical jokes. When awake, though, this cool cat is always on the lookout for surprise mouse attacks—he will even come up with an occasional scheme to try to get even with Jerry. Though his efforts to outsmart Jerry are usually fruitless, it doesn’t stop him from trying again!

**JERRY**

This pint-sized wonder has definitely proven that being small doesn’t have to be all that bad! With quick little feet, big radar ears and sharp mind, Jerry can get himself out of almost any predicament. He can then sit back and snicker as Tom gets into a heap of trouble himself. With those cute little eyes and blushing cheeks, not even hard-hearted Tom can stay mad at Jerry for long.

**TUFFY**

An adorable little bundle of energy, clad in an overpadded diaper and armed with enthusiasm, Jerry’s little nephew Tuffy is the perfect partner in play and student in cat harassment. While learning all the tricks from Uncle Jerry, the young lad even pulls a few of his own out of his hat! What does this dynamic duo spell? Double the fun for Jerry and Tuffy, but double the trouble for a frustrated Tom!

**SOME HELPFUL ITEMS**

Collect these useful items along the way to help you get out of any sticky situations you may encounter.

- **A Big Cheese refills one Life Heart.**
- **Grab the Little Cheese for Bonus Points.**
- **Marbles are your main weapon.**
- **Blow a bubble to float up to high places.**

**SO WHAT’S THE PROBLEM?**

Tom is at it again with yet another fur-brained plot! He has mousenapped Jerry’s nephew, Tuffy, and locked him in a trunk in the attic. As Jerry, you have to make your way up from the basement through five levels, each a different room in the house, to rescue the little guy who admires you so much. Along the way, you’ll come up against obstacles like pesky Roaches, slimy Snails, an army of Ants and, of course, Tom himself! You can do it, though. Remember, Tuffy is counting on you!
You’re all ready to rescue Tuffy from up in the attic, but Tom’s made this one tough on you by making you start down in the Basement. You know everybody has to start somewhere, but it’s too dark down here! All those creepy-crawlies don’t make things any better, either, so grab a few pieces of strategically placed Cheese along the way to make your journey a little more pleasant. You’ve got no time to lose as you make your way up through the tangled mess of pipes and crates. Don’t get lost! This is only the beginning.

Stage One is easy to get lost in. Don’t forget to keep your mousy wits about you as you make your way to the exit in the upper right corner! Try jumping on different objects—some will prove to have helpful hidden footholds you may not have noticed before. Using the crates to stand on and climbing up the pipes is a good way to reach high spots. Watch out for those Bees, though, because they will make a beeline right for you. Although they won’t hurt you, they can cause Jerry to have a nasty spill. Also beware of the blasts of steam that frequently pop out of open pipes. Keep an eye out for new items!

Don’t let Jerry get roasted by the hot blasts of steam!

Spider Webs will make Jerry as slow as molasses.

Find the Bonus Stage hidden in each stage to earn extra points.

To make it through Stage Two and up into the Kitchen, Jerry has his route planned out through the drain pipe, which conveniently enough, makes a perfectly mouse-sized tunnel! You will have to share the pipes with an occasional rush of water, so don’t get swept away. There are lots of pieces of Cheese to be found, as well as a healthy supply of Invincibility Ink to help you get past the many Snails and Lobsters. Helpful hints to remember: While Snails and still Still Lobsters cannot be destroyed, you can put them to sleep with a few hits from your Marbles. Moving Lobsters can be destroyed with two hits.
STAGE ONE WEAPONS

It seems Tom has lost a few over the years, but witty Jerry has an endless supply of Marbles at his disposal. Give them a try and see where they are most effective. There are some other handy items to be found in World One, like the Hammer and the Frying Pan. With these special weapons, you can defeat some enemies with only one hit!

Use the Hammer on tough enemies.

STAGE THREE

Look who’s waiting for you at the end of World One! About five good hits on the head with your Marbles should keep Tom out of the way.

Jump up and shoot a Marble at Tom’s head.

Don’t take a dip—Jerry can’t swim!

A Still Lobster can’t be destroyed. Just put it to sleep for a while.

To get up high, float in a bubble.

Don’t let an unexpected Water Blob catch you off guard!
Relieved to be out of that dark Basement, eh? Jerry’s next stop on the way up is in the kitchen. Yum! There is sure to be plenty of Cheese here for a certain hardworking and hungry mouse named Jerry! Unfortunately, those pesky Roaches and a whole army of Ants had the same thing in mind. Maybe there will be enough snacks to go around for everyone. We hope so, because Jerry needs his strength to make all the tricky jumps in this level.

Not again! Tom has come back to greet you at the end of Stage Two, but he seems to have fallen asleep. Maybe you can get these Bees to help wake him up. The trick is to get each Bee to sting poor Tom on the head. With practice, you’ll surely put a “sting” in his step!

When you’re a little mouse, everything in the big human-sized world can be so overwhelming! Carefully make your way through the cupboards, drawers and shelves. Make use of all the items in the kitchen. Jump on pan handles, or grab a Meat Cleaver for some spice.

Stage Two sends you sneaking behind the walls. This must be where all those Ants have been camping out! Head to the upper left area and use your Bubble Gum to find your way out of the woodwork.

You have to chew a stick of Gum to get out of Stage Two.

Stand on the middle platform and toss a marble at the Hive.

A new weapon for you! Grab the Meat Cleaver in the Kitchen.

Pounce on a Caterpillar for a boost to the upper platforms.
You’re getting close—don’t give up now! It is very windy up on the Roof, so watch out for leaves and other flying debris. They will push you right off the edge! You also will find a whole herd of acorn-throwing Hopping Chipmunks up here, too. Most every obstacle can be taken care of with your Marbles.

Where there’s a Chimney there’s fire! Marbles won’t be of much help to Jerry in this hot box, but a Cup O’ Water might help put the flames out. Watch out for those floating Coals.

It is nice to be back indoors in a comfy living room. Just where a nice house mouse should be! Stage One is filled with Bouncing Balls ready to bump Jerry off without hesitation. Watch the pattern and avoid them or take them out with a couple of marbles.

Back again? This time Tom is tossing Firecrackers at our hero. Jump to the upper left platform, then back to the right after the Firecrackers pass. Watch the pattern. When Tom’s head appears, let him have it with the Marbles then get back to the upper left. Be quick!
Your friend hasn't given up this time! Won't you show him up? Show him by clobbering those fleas. It will take lots and plenty of...
Jerry has made it to the last stage and there's no time for a pit stop—we're almost to Tuffy! Those nasty Roaches and Chomping Dentures are back in full force, but you know how to take care of them. If you think you are stuck, just look for a dangling electric cord to grab onto or a bottle top to leap on.

This must be the Attic—it is full of Ghosts! Avoid the cobwebs and nails, and use the Mothball sparingly, as you'll need it for the final confrontation.

No more Mr. Nice Mouse! It's time to stop playing games—at least until Jerry can devise a scheme to get Tom back, that is. Dodge the Rockets and toss those Marbles at Tom's head, and you'll soon have your number one helper back.

Get the Key to save Tuffy!

Mothballs are better than Marbles.

Watch the pattern and keep those Marbles coming!
HAVE A NICE DAY!

NINTENDO POWER
The Dark Queen Hatches A New Scheme!

To your battle stations Toadsters! The Dark Queen is up to her evil tricks again and those fabulous fightin’ frogs, the Battletoads, are in for another round of slime smashin’ action against her fiendish forces! Zitz goes it alone through nine treacherous stages to track down Her Wicked Majesty’s ship, the Gargantua, and save his crazy compadres, Rash and Pimple, from the clutches of the queen in this all new sequel to the Toads’ NES mega-hit. He’ll soar, slide, swing and slam his way through Armagedda and soon go against the rockin’ Robo-Manus!

Time to get mad, bad and crazy Zitz! Rash and me are in deep slime inside the Dark Queen’s ship.

Hold onto your warts, Pimple, I’m comin’! But first, I’ve gotta fight through about a zillion muck suckers!
The battle begins much like the Toads’ first adventure, this time, though, there’s only one frog up against an army of Psycho Pigs and Groggs. Their leader, General Slaughter, is waiting in the wings!

**Sock The Swine!**
Bop the first Psycho Pig with a couple of well-placed boots, then grab his axe and take on the others. You’ll waste ‘em with one hit!

**Hit ‘Em Low**
Rat-Zaps fire off two shots when they’re hovering high. Then they dip down to the ground. That’ll be your cue to bust ‘em up!

**Club The Clubba**
After the Clubba takes three quick swipes and two slow ones, move in and knock it out with two swings of the axe.

**Clubba Breaks Out**
A Clubba starts swingin’ as soon as you round the corner.

**GENERAL SLAUGHTER ATTACKS!**
Big, bad General Slaughter is fast and powerful. If you’ve still got the axe, hit him and run. If you don’t, move in close and come at him with a Kiss-My-Fist flurry. You should be able to keep the General in the air and out of your face.
Take to the sky, Toad! The Dark Queen's flying rodent air force is on the way. You've got to hop on a Turbo Wing and head 'em off! Once you blast through the small rats, you'll go up against the big cheese!

**Walls Rush In**
Spiked walls fly into the area with super speed. Watch them as they approach and steer your Turbo Wing through the holes.

**ROCK THE RODENT ROCKET**
The Rodent Rocket is built to last! As soon as you take out its four smoke-sputtering guns, it'll streamline into a mighty Toad-blasting machine. Stay out of the way as it fires off four shots, then move in quickly and aim for the big gun.

**Flapper Force**
Your first airborne adversaries are frenzied Flappers. There are tons of these speedy bat-like beasts. Stay on the left side of the screen, fire rapidly and move up and down to clear a path through the Flapper wave. Since the Flappers fly in a straight line, it should be easy to zig zag through the group and move on to the next challenge with very little damage to your Turbo Wing.

**Auto Guardian Alert**
An Auto Guardian flies in as soon as you blast the Flappers. It's only vulnerable to your shots when it's sending out its own blasts. Hold down the B Button to Power-Up your cannon, then fire away!

**Bat-Rat Attack**
The mutant mice with wings that fly in for the fifth air wave are quick and crafty. Blast 'em with rapid shots before they swoop down and smack you.

**Another Auto Guardian**
Take out this mechanoid the same way that you took out the last one.

**Walls Rush In**
Spiked walls fly into the area with super speed. Watch them as they approach and steer your Turbo Wing through the holes.
Crush The Krunchas

These critters look tough but, beating them will be a cinch. Pummel 'em with a Jawbuster and move on to the greater challenges at the end of the stage.

Don't Get Burned, Zitz!

When you pound the Giblets then give 'em a Big Bad Boot, you'll leap into the air and move forward several steps. Watch out! If you go too far, you'll fly into a fire or fall off the edge. The best way to clear the area of these rodents is to let them come to you as you're standing away from all other dangers, then let 'em have it!

Wait 'Em Out

There are Giblets crawling all over these small islands in the air. Wait for a while before you jump and some of them will fall.

Swing, Toad! Swing!

Take a tip from Tarzan and swing across the wide gaps in this area by grabbing onto the ropes and letting go when you get to the other side. The last ones move very quickly. Jump as they come at you.

Crush The Krunchas

These critters look tough but, beating them will be a cinch. Pummel 'em with a Jawbuster and move on to the greater challenges at the end of the stage.

DESTROY THE DARKLING

The winged Darkling flies near the top of the screen and occasionally drops down with a jarring thud. Jump up and hit it in the air, then immediately move in the other direction before it bites back. Good luck, Toad. You'll need it!

You're on webbed-foot in this sinister stage. The Darkling is an evil creature with a legion of loyal Giblets and Krunchas. Fight them off but, watch your step. It's a long way down and frogs can't fly.
After a quick hop through the swampy area of the river, you’re gonna take a ride on the jammin’ Jet Ski all the way to wild and wicked Wurm. Stay out of danger or you’ll sink!

Saturn Toadtraps crawl all over this area. Knock ’em out of the picture with a quick Anvil Slam.

Hop Onto The Rocks

There are rocks that move up and down in the water. Jump in their direction as soon as you see the water ripple.

Burn Water, Battletoad!

Dodge The Log Jam!
The Jet Ski starts to speed through the river as soon as you hop on. Stay on the left side of the screen and move up and down to avoid the Logs that drift by.

Watch For Whirlpools!
Turning torrents flow up and down along the width of the river. Speed by when they’re on the other side or jump over ’em.

Wait for the Whirlpools to move to the other side of the river. Then go for it!

Fly By Floating Rats
The two-rodent Rat Dinghies move up and down very quickly. Slow down as you approach them, then coast by when it’s clear.

Tentacle Terror
Octopus Tentacles pop out of the water all over the third leg of the river. Weave to avoid them.

MASH THE MIGHTY WURM
The river stage ends with a wild Wurm showdown. Use the Jet Ski Swing to slap this awesome river monster and you’ll knock it out of commission. Once the body is gone, the head floats freely in the air. Keep swinging and you’ll send it sailing.
The Dark Queen has set up a complicated series of traps on Armagedda. One of her trickiest snares is this underground maze. Wind through the maze with web-feet flying and don’t get flattened by the Brain Damage boulder that is following you. It’ll take a lot of practice to master!

**Keep Hoppin’ Frogman!**

This upward passage is super tough! Don’t make a mistake or you’ll fall flat.

**Run From The Rock!**

Watch it! The Brain Damage boulder is right on your tail! Weave perfectly through the maze or the boulder will catch up and turn you into a paper thin Toad.

**Four More Stages To Go! Keep Battlin’, Toad!**
Pit gains strength by defeating enemies—lots of enemies. Flyers, crawlers, creepers and Reapers become arrow-bait for our hero. Guardians in the fortresses are tough to handle, not to mention the embarrassment of being turned into an eggplant by an Eggplant Wizard.

MYTHICAL MONSTERS

Pit gains strength by defeating enemies—lots of enemies. Flyers, crawlers, creepers and Reapers become arrow-bait for our hero. Guardians in the fortresses are tough to handle, not to mention the embarrassment of being turned into an eggplant by an Eggplant Wizard.

Pallutena's Plan

When the Goddess Pallutena dreams of tragedy befalling Angel Land, she summons Pit and sends him on a grueling mission to gather the three Sacred Treasures and defeat the invading Orcos. So begins Nintendo's Game Boy sequel to the NES classic, Kid Icarus. All the features of the original are included, plus great additions like Battery Save. The game was received late so we only had time to cover the first level, but later areas are similar. It may look like Kid-stuff, but it's a real challenge.

PAUSE AND PEEK

While the game is paused, you can scroll in every direction around Pit's position using the Control Pad. Plan out the best route ahead or find rooms to explore.
Stage One’s trickiest area is the series of long jumps between the Treasure Room and the Shop Keeper’s Shop. For the highest, longest jumps, press and hold the A Button. Don’t rush through this stage. Collect as many Hearts as possible by shooting monsters.

The Shop Keeper is an honest citizen of Angel Land. His prices are lower than the Black Marketeer’s, but he won’t let you use a Credit Card. Buy a glass or bottle of Water of Life, or a Hammer or Key.

Although Bat Chambers seem like dangerous places to spend time, Pit can quickly build up his Hearts here. Each defeated Bat is worth five Hearts. You can enter each room only once during the game.

Each jar may contain treasure such as a Big Heart worth ten Heart Points, or a Hammer, or even a Credit Card. One jar contains the God of Poverty, and if you hit him, the remaining jars vanish. Each arrow shot costs you five Hearts.

Drink the Water of Life to replenish some of Pit’s lost energy.

A mysterious but helpful man named Don appears in this and other rooms to give Pit advice. In this case, Don tells you that some walls can be broken with Hammers to reveal items or shortcuts. Also use Hammers on statues to find hidden items.

“I’m going all the way to the Sky Palace!”
King Krabs and blocks of ice make the second stage a bit more difficult. Visit the Hot Spring to restore your energy before meeting the Reaper and his Reapettes who guard the Treasure Room.

Zeus knows how well Pit's training is going and he will reward you with Strength Arrows if you have defeated enough enemies. Added strength means that Pit can defeat stronger enemies with fewer shots.

In addition to Hearts and Hammers, you can get special items such as Credit Cards and Barrels in Treasure Rooms. If you shoot all but one of the jars without finding the God of Poverty, go ahead and shoot the final jar for the special item.

Glasses and bottles of Water of Life are expensive—100 and 250 Hearts respectively. It's much cheaper to buy several Hammers at 20 Hearts a piece and hit statues to get Water of Life. Later you can obtain a Barrel that holds eight bottles.

Look for a safe place from which to attack the Bats. Just to the right and below the lower left ledge is one such place. When you defeat the Bats whose flight patterns bring them in range, jump to the first ledge and finish off the rest.

The Hot Spring is one of the most welcome sights in the game. Pit can recover all his lost energy by jumping into the pool. This room, like others, can be used only once each game. As a result, you should use it only when necessary.
Look for rooms where Pit can gain strength like the secret Hot Spring and Training Room. The long jump beneath the Goal is hard because the ceiling is low. Get a running start, then just tap the A Button to clear the wide gap.

**CHAMBER OF ZEUS**

Don has a secret tip about the hidden Hot Spring above the entrance to Stage 3. Since there are many hidden things in the game, a supply of Hammers comes in handy for finding them. Use the Harps to get Hammers for free. Wait until foes are thick on the screen before taking the Harp.

**MESSAGE FROM DON**

Look for a hidden door above this stage’s entrance.

**WATER OF LIFE**

**SHOP KEEPER**

**TRAINING ROOM**

Earn a special weapon in Zeus's Training Room by shooting the blocks that tumble from the ceiling. Before entering, grab the Harp just below the entrance of the Training Room so the Grim Reaper turns into a Hammer.

**HARP**

The wall above the entrance to this stage contains a hidden door that you can open using the Hammer. Inside, Totem Blocks fall from the ceiling, some of them shooting fire balls at Pit. Fire your arrows to destroy the lowest Totems, then jump to the Hot Spring. If you reach the Hot Spring, the Totems disappear and your energy will be recovered.

"Being a hero is tough and I have three more worlds to go."
Finally! FaceBall 2000, new from Bullet-Proof Software, gives you a chance to blast those terminally cheerful "smiley faces" into oblivion. Two play modes, Cyberscape and Arena, provide variety, and multiple-player capability adds challenge. Try the four-player game for maximum fun, and remember to "Have a nice day!"

**CYBERSCAPE**

Don't take the wrong turn! Find your way to the flashing exit, and get ready for the more challenging mazes that lie ahead.

Choose the Cyberscape mode, then select a skill level. "Very Easy" is best for practicing.

Cyberscape is loads of fun for single players, and with more than 70 levels, it promises hours and hours of entertainment. Wipe the smiles off enemy faces as you search for the flashing exit. Sensors will map your progress.

**ARENA**

More fun for multiple players, Arena mode pits you against your friends on a variety of playfields. Get them before they get you!

Choose from a variety of mazes. Small mazes make for super fast games—you can run but you can't hide!

Four-player action is fast, furious fun. Be alert and eliminate the enemy as quickly as you can. When the competition is hot, you have to think fast and move even faster. Only one winner will be smiling at the game's end.
Cyberscape Escape

In Cyberscape, your mission is simple: Seek and destroy the Master Smiloid. At least it sounds simple. More than 70 mazes stand between you and the Master, making matters more complicated. Keep on smiling as you work your way towards the flashing exit.

Level 14
Check the Pods here for important information. It seems that you will have to find a special Key to open certain doors. Knock all you want to, they won't open without it.

Level 12
Early levels may seem easy, but things start to get hairy in Level 12. Be sure to check all of the Pods. You never know which ones contain valuable bits of information.

Level 13
Level 13 is long and confusing. Check your sensor-drawn map often to keep your bearings, and always keep moving towards the flashing exit and the entrance to the next level.

Mass Smiloids mean mega-trouble and are enough to make anybody grouchy. They don’t move very quickly, though, so you’ll have a chance to rack up some serious points.

Use the wall as a barricade. When an enemy pursues you around the corner, stand back where you’re safe and fire.

Never turn your back on an enemy! When you want to retreat, back out so you can face him all the way.

OPTIONS
You control the great game action and set some interesting options to boot.

ITEMS & POWER-UPS
Keep your eyes open, Smiley. Cyberscape is intense! In addition to the exit in each level, you should be looking for helpful items that will make your journey easier.

Cyberscape Continued

Some walls will open if you shoot them several times or push against them repeatedly. Be careful, though—there might be enemies on the other side, just waiting to attack.

Different enemies you encounter have their own methods of attack. Remember the different appearances of the various clan members and study their movement patterns.

Winning Tips

Plan your strategy to improve your chances. Try these slick moves on the sly smilers.

1. Don't turn your back on a Smiloid. Run backwards when you retreat.
2. Sneak a peek around corners to see who's there before you continue.
3. If you touch a Transport, check the map immediately to see where you are.
4. Put on a happy face by sitting still for awhile. Your power will regenerate.
5. Inch to the left or right to avoid enemy fire.
6. Learn to move and shoot at the same time.
7. Check the map frequently.
8. Look for secret Doors. They might hide a special "mini-adventure."

The mazes just keep getting bigger and bigger, so it's easier and easier to get lost. Press Select to check the map frequently, and try to keep a smile on your face.

If you've made it this far, you're obviously a maze maniac. Level 50 is huge, but you have plenty of time to explore it. Again, you'll need to find a Key in order to exit.

Three On The Floor

There are three different devices on the floors. Learn to use each of them well.

Watch out for traps in some areas. Steer clear of questionable passageways whenever possible. The Smiloids are becoming more sinister by the minute; some will take two or three hits before they'll give up their grins.

Esr-di^ Level 30 is swimming with Smiloids. If you try to rush too quickly through, you'll end up pouting. You won't be able to exit until you find the Black Key.

If you've made it this far, you're obviously a maze maniac. Level 50 is huge, but you have plenty of time to explore it. Again, you'll need to find a Key in order to exit.
Awesome Arena!

If you aren’t feeling particularly adventurous, the Arena mode is the one for you. It’s a great place to hone your marksmanship skills. Tag ten enemies to win.

Faceball 2000 is fun no matter how you play it, but for the ultimate gaming experience, there’s nothing quite like an intense, four-player match-up! Try both of the multiple-player modes.

**Example 1**

**Team Techniques**

Cooperate with your friends and use teamwork to wipe out the computer-controlled Smiloid forces. Come up with a battle plan before you begin.

**Example 2**

**Blast Your Buddies**

Challenge your friends instead of the computer for a completely different experience. You’ll find that they are much less predictable than the computer!

**Example 3**

**Midi-Maze**

What are you smiling about? The hallways are long, and there are few hiding places.

In the Midi-Maze, find a cozy corner and hang out there. Stand with your back to the wall as you wait for Smiloids.

**Example 4**

**Feeding Time**

You can run but you can’t hide! There are no walls to use for cover, so fire like crazy.

It’s time for target practice, not fancy plots. Don’t waste time planning strategies—just run and shoot.

Face it! It’s unique, it’s wild, it’s the most fun you’ve ever had in four-player mode. Try it! And be sure to Have a Nice Day.

Faceball 2000 is fun no matter how you play it, but for the ultimate gaming experience, there’s nothing quite like an intense, four-player match-up! Try both of the multiple-player modes.

In the middle of a game you can press the Select Button, then hook up another Game Boy and continue the game as a 2-Player game!

**Tri-Cities**

You’ll be working your way through three different cities on your mission. A map appears between cities so you can plot your progress.

**Iodesa**

Iodesa is a nice city. Or at least it used to be nice before all the people here tried to slam you into the sidewalk. Beware of the chain saw!

**Sadade**

Sadade has always been described as a mysterious city. Your enemies are not mysterious, however. You know exactly what their intentions are.

The most famous street fighters around are back again in Game Boy’s Double Dragon II from Acclaim. You could say that Billy and Jimmy Lee have led pretty rough lives. They’ve been through countless heroic adventures. Now, they’ve been framed and must clear their names.
Puzzle games seem to be natural hits for Game Boy. WordHai from Meldac is no exception. There are two different types of puzzles in this Game Pak. One of them even has a great 2-Player simultaneous play option. Grab your thinking cap and get ready to spell.

It's Two Word Games In One Cartridge!

**WordHai**
In the WordHai game, you must make three letter words using the letters on the ends of the rows. You'll need to use some serious strategy.

**WordZap**
It's a race to build as many words as you can. The words can be three to five letters long. All you need to do is build seven words before the computer does.

**2-Player Mode**
Link two Game Boys together to play head-to-head WordZap. It's much more exciting to play against a human opponent.

---

**Round Complete**
After every four levels you will see a nifty picture.

---

**Don't Get Zapped**
If you and the computer use the same word, it gets zapped.

**You Can't Win 'Em All**
Sometimes the computer wins. But there's always the next round.

---

**Hey! That's Not A Word! (or is it?)**

- **Kith**
  Familiar friends, neighbors, or relatives.

- **Vita**
  A brief autobiographical sketch.

- **Adz**
  A cutting tool that has a curved blade set at right angles to the handle and is used in shaping wood.

Above are a few odd words that you may not know. In WordHai, it is very useful to expand your vocabulary so you can come up with more words. In fact, if you get stuck while you are playing, try making up words. You may be surprised at how many actually work!
The Hunt For Red October

Stage Select

As Captain Ramius, commander of the high tech Soviet submarine, Red October, you’ve taken it upon yourself to cross eight challenging stages of the Atlantic. You plan to defect, against the will of the Soviet Naval Fleet. Our agents have discovered that there is help in the form of a stage select code which will allow you to begin your adventure in any stage by entering a quick code. At the title screen press the B Button, the Select Button, Left and Right on the Control Pad, then Start. The message “Starting World: 1” will appear. Change the starting world number by pressing Left and Right on the Control Pad. Then, when you reach the desired stage, press Start Button to begin.

Operation C

Hidden Power-Up

There’s a hidden Power-Up in Area 5 of this alien blasting adventure that you’ll find to be particularly useful since it’s located in the section just before the first level leader. After you jump off the elevator, run to the right and pass the bubble-producing mechanisms. When the last of the machines is on the left edge of the screen, fire to the left and aim for the bubbles as they emerge. One of the bubbles will pop to reveal a scatter shot Power-Up. Collect it and keep fighting with this extra firepower.

Fire on the bubbles that emerge from this machine to earn a valuable scatter shot.

In case you missed it in an earlier issue of Nintendo Power, you should know that there is an area select code for Operation C which will allow you to begin in any of the first four areas. When the title screen appears, with the name of the game in full view, press the arrows on the Control Pad and the A and B Buttons in the following order: Up, Up, Down, Down, Left, Right, Left, Right, B, A, B, A. Then press the Start Button and the words “STAGE SELECT AREA 1” will slide onto the bottom of the screen. Press Up and Down on the Control Pad to change the Area Number and press the Start Button to begin in the selected area.

**HOME ALONE**

Last year's most popular movie and this season's hottest home video is on its way to Game Boy! Home Alone from THQ loosely follows the plot of the movie which puts you in the shoes of the resourceful kid, Kevin McCallister, and gives you the challenge of saving your family's valuables from a group of burglars who are loose in the house.

You've got to search the house for valuable items in each of the four rounds and toss them into the laundry chute before the thugs can get them. When you've collected all of the stuff, you'll earn the key to the basement, so that you can make your way to the cellar safe and lock all of the valuables away.

Once you've dropped everything down the laundry chute, you'll fight your way through the basement.

When a movie plot is adapted to a running and jumping game, the story is often presented in a very basic way without any of the movie's subtler ideas, as is the case here. While the game does pit you against the burglars, it doesn't include any of the movie's jokes and the inventions that Kevin creates to thwart the criminals.

Hudson Hawk

Sony Imagesoft’s Hudson Hawk follows the reluctant burglar as he attempts to retrieve Leonardo da Vinci’s treasures. The Hawk is drawn in a fashion that fits the fast and fun pace of the game. He ducks under surveillance system beams, climbs clotheslines and even bounces off awnings.

In addition to action, there’s problem solving too. Before he carries out a heist, the Hawk has to figure out how he’ll do it without getting caught. The game’s due out next month.

NINJA GAIDEN SHADOW

ES star Ryu Hayabusa soars onto the Game Boy screen with an all new adventure in Ninja Gaiden Shadow from Tecmo. He’s got to fight through the creep-packed streets of the city and battle an evil force that has taken over a skyscraper. Sports fans, this month's Super NES previews are mostly for you. The Super NES brings new realism to the court in Super Tennis and takes the graphics in Baseball Simulator 1.000 way out of the ballpark. If aerial dogfighting action is your thing, U.N. Squadron features super graphics and control that will take you to the heights of shoot 'em up excitement.

**THIS MONTH'S LINEUP:**
- **SUPER TENNIS**
- **U.N. SQUADRON**
- **SUPER BASES LOADED**

**Real Tennis**

Making use of Super NES capabilities, Super Tennis is as close as you'll come to playing tennis without using a racket. The stereo sound and enhanced graphics make this game look and sound like real match play, but don't let them distract you from the game!

- Diving for passing shots is an important part of any match. If the ball is out of your reach run towards it and hit the "B" button to dive.
- When you've made an exceptional play, or if you really muffed a shot, your player might scream either "YEAH!" or "NO!"
- When you win a point with a super sharp volley, the audience applauds, showing its appreciation.
Becoming a true tennis champion requires that you master various strokes and learn when to use them. The three general shots, serve, volley, and smash, are discussed below. As is true with real tennis, it will take many hours of practice to become a champ. But when you learn how to use each stroke to your advantage, it will be all "ad-ins" for you!

**Serve**

- **Slow (A)**
  - This is the best one to use if you faulted on your first serve. It is a softer serve and it's easier to place the ball accurately in the service court.

- **Fast (B)**
  - With this super-fast, flat serve, you can catch your opponent sleeping on his feet. If you master its use, you can serve all aces to take the set.

**Volley**

- **Weak (A)**
  - Smart players sometimes use a weaker drop shot to change the pace and draw their opponents closer to the net. It's a good strategy.

- **Strong (B)**
  - Aim for the deep corners of the court. Use the strong volley to alternate corners and keep your adversary running back and forth.

**Smash**

- The overhead Smash is everyone's favorite, but you must be skillful to keep it in the court. Stand below a lob, press the "B" Button, and aim for the open court.

**Shot Technique**

- **Slice (A)**
  - If your competitor closes in on the net and has you running back and forth, Slice the ball by pressing "A" to drive her deep.

- **Flat (B)**
  - The Flat return is a stroke designed to outwit your opponent and keep him off balance. To use this shot hit your "B" Button.

- **Top Spin (X)**
  - Throw a little twist into the game using the "X" Button to send your rival a Top Spin. That should keep her away from the net.

- **Lob (Y)**
  - When your opponent approaches the net and has you running to keep up with him, press the "Y" Button to Lob deep to the baseline.
Super Tennis serves up one- or two-player fun in both singles and doubles modes. Then, if you think you're ready, you can challenge the computer’s hot shot pros in the circuit mode. In any of the modes, you can select your player from the computer’s list and determine who your opponents will be.

**Singles**

Singles play is for either one or two players, but it is always one-on-one. Play with a friend or against the computer. It’s always a challenge.

- **1P vs COM**
  - The computer players all are seasoned, talented professionals. You have to stay on your toes to stay in the match.
- **1P vs 2P**
  - Who knows how competitive your opponent will be in this two-player mode. Stay alert! Your rival might be tough.

**Doubles**

Doubles mode presents three more types of play, and each requires you to rely on your partner. Use teamwork and plan doubles strategies.

- **1P+2P**
- **1P+COM**
- **1P+COM**
  - You both have to be on the ball to win this one.
  - Choose a talented partner and he’ll hold his own.
  - Player’s skills really make a difference!

**Circuit**

Once you feel confident, you might want to try the difficult circuit mode and travel around the world to pit yourself against the very best players in the game.

- **Select Player**
  - Are you up to a challenge? Choose your favorite player and take on the pros in the world circuit mode.
- **Rio Open**
  - Pro tournaments are held in cities around the world. Now decide which tourney you’d like to enter first.
- **Rankings**
  - Just like it does in the real world of tennis, winning matches improves your position in the standings.

**Surface**

- **Hard Court**
  - On a hard surface, the ball bounces high and fast.
- **Lawn Court**
  - You get a lower bounce and less distance on grass.
- **Clay Court**
  - Balls bounce high on clay and go medium distance.
You can choose your player from this list of 20. The list is divided into two sections: women on the left and men on the right. These professional players are ranked according to their abilities. Individual strengths are listed below.

- **Amy**
  - Serves well and has a good forehand. She moves well left to right.

STORY
Capcom's arcade action hit, Area 88, comes to the Super NES as U.N. Squadron. With enemy jets of the Project 4 Mercenaries, their ground forces and missiles all aimed at you, this game makes full use of the 128 Moving Objects that the Super NES can display at once. Choose your target, aircraft and weapons, then take off for action.

Ten Stages Swarming With Enemies Await You
You must progress through ten stages to defeat Project 4. Along the way, you'll earn money to purchase more powerful planes and weapons. The stages can be flown in many different orders. You'll need to figure out what sequence works best for you.

MOVING STAGE
It is very important to clear the moving stages as quickly as possible. If you don't clear them fast, the enemies will get closer to your home base.

BONUS STAGE
Select the green trucks on the map screen and you'll cruise into a bonus stage. When you clear a bonus stage, you get a hefty chunk of cash.

Choose From Three Different Pilots
There are three highly skilled pilots in your squadron. You can only choose one to fly this mission.

SHIN KAZAMA
Shin is a good all around fighter. His power level increases the fastest.

MICKEY SCYMON
Mickey is a weapons expert. He is able to choose from the most Special Weapons.

GREG GATES
Greg is a skilled flyer. His ability to fly even the most damaged aircraft is a bonus.
How To Power-Up

Before each stage starts, you can buy equipment. Of course, before you go shopping, you’re going to need some cash. Every enemy that you destroy adds money to your bank account.

Select Your Jet Fighter And Your Weapons

As you make more money, you can add more planes to your fleet. Each of these planes has advantages in certain situations. If you find that you just can’t seem to do well in a particular stage, try a different plane or some different special weapons. Soon, you’ll learn what combinations work best for you.

THE FIGHTERS

Each fighter has different abilities. Many stages are much easier if you have the correct fighter and weapons.

SPECIAL WEAPONS

Each fighter is able to equip certain weapons. Be careful that you don’t spend your money carelessly on weapons that you’re not going to use.
PREVIEW OF THE EARLY STAGES!

10 STAGES AWAIT YOU!
Your purpose is to defeat Project 4, the organization that has taken over your homeland. To do this, you must defeat 10 stages full of enemies. You can do these stages in any order you wish.

MISSION 1
FRONT BASE
Your mission always starts in this stage. Take your F8E Crusader and equip it with bombs for the most effective attack. A lot of Power-Ups are to be found here.

MISSION 2
THE SKY
Clear this stage quickly or the enemy units will move closer to your home base.

MISSION 3
AIRCRAFT CARRIER
For some reason, Project 4 has put an aircraft carrier in the middle of the desert. Strange...

MISSION 4
BATTLESHIP
This ship has heavy armor. It takes a while to defeat it. The Phoenix Missiles are your best bet.

MISSION 5
FOREST BASE
The A10A Thunderbolt is pretty good in this stage. Its air-to-ground firing capability is very nice to have here.

The number of new releases is growing as we are moving into the gift giving season. Our focus on games which didn't quite rate feature coverage this issue includes a spaceship shoot 'em up for the Super NES, two light-hearted NES action games, an NES space shuttle mission simulation and a Super NES one-on-one battle with big, big monsters. Check 'em out!

**SPACE SHUTTLE PROJECT**

Space shuttle astronauts have to master a lot of activities in order to carry out their missions. Such is the case in Space Shuttle Project from Absolute. In this simulation of six space shuttle missions, you do everything from preparing the shuttle for take-off to making sure that your cargo reaches a safe orbit. You'll do this by carrying out several specific tasks that follow a set script.

Your first task as Shuttle Commander will be to enter a four digit code and the name of the space shuttle as they are given to you. You'll then have to switch on the fuel tanks and board the crew with the clock ticking down. After take-off, you'll carry out most of the other tasks of the mission by pressing a specific button when a marker reaches a shaded area on a bar or by moving an arrow to match the movements of a computer-controlled arrow. While success in these tasks sometimes results in brilliant shuttle graphics and realistic sound effects, the actual execution of the tasks doesn't seem to give a real sense of controlling a shuttle mission.

Most of the tasks of flying the shuttle are taken care of stopping a moving line in a shaded area. In the first mission, you're in charge of making sure a satellite reaches a safe Earth orbit.
SNOW BROS.

Two-player simultaneous action and fun characters are the focus in Snow Bros. from Capcom. This arcade game translation pits two princes-turned-snowmen against a host of enemies in the dozens of enclosed rooms of Snowland. You’ll clear each room by hitting the enemies with a cold blast, turning them into snowballs and pushing them off the screen. Creatures that are flattened by snowballs will turn into point-producing items and helpful potions.

Turn enemies into snowballs and push them off the edge. Snow bowl over creatures to gain items and potions.

TOKI

While Snow Bros. follows a pair of princes that have been turned into snowmen, Toki from Taito deals with a hero that has been transformed into a monkey. As Toki, it’s up to you to fight through the six stages of a mysterious land, take on the villainous Bashtar and find a way to restore yourself to human form. There’s also a kidnapped damsel but, that’s old news. As you’re making your way through the land you’ll be able to fight off the many enemies by spitting a powerful blast in eight different directions and by collecting Power-Ups that protect you from harm. This arcade game adaptation follows the story of its predecessor step by step.

Search for protecting Power-Ups like the super strong helmet. Knock out your enemies with a blast in eight directions.

The evil King Scorch has turned Princes Tom and Nick of Snowland into snowmen and has kidnapped the princesses, Teri and Tina. As you fight through Snowland, you’ll take on one of Scorch’s henchmen in every tenth room. Turn the weapons of these huge creatures into snowballs and toss them back to give them a taste of their own medicine. You should go far with teamwork.

Princes Tom and Nick have been transformed into snowmen by King Scorch. Freeze the shots of this creature and send them back with teamwork.

There are several different Power-Up items which will help you in your battle to beat Bashtar. Some allow you to spit fire, while others give you much needed protection. Many Power-Ups are just out of reach. The only way that you’ll be able to collect them is by getting a boost from the enemies on the ground. As soon as an enemy crawls into position under a lofty Power-Up, stomp it and you’ll bounce into the air. Grab the Power-Up and continue your fight through the land.

The three-shot Power-Up in this area is too high to reach by jumping. Stomp the creature that pops out of the ground and bounce.
**DARIUS TWIN**

Darius Twin from Taito is the first Super NES shoot 'em up space adventure which allows for two-player simultaneous action. You and a friend can battle side by side through a seven round mission in a faraway galaxy. The evil Belser, leader of the planet Darius, is launching an attack on the neighboring system including your home planet, Orga. It’s up to you to clear a path to Darius and put an end to Belser’s insidious plans.

While there’s nothing new or unique in the storyline of this arcade-hit-to-Super-NES translation, the enemy battleships do have a style that is all their own. Even though they come from a distant series of planets and they soar through space, these huge fighting machines resemble giant creatures of the deep. Blast through the hordes of smaller ships, Power-Up your Silver Hawk fighter and take on the mysterious ships that threaten your planet.

**ULTRAMAN: TOWARDS THE FUTURE**

He’s been a star of Japanese movies for many years and now the ultimate warrior, Ultraman, is blasting onto the Super NES in Ultraman: Towards the Future from Bandai. You are the hero of futuristic Earth as you take on your most feared enemies in nine one-on-one battles. The detailed graphics and realistic sound effects are top notch. Since there are only nine battles though, the game is lacking in depth. As you fight to victory you’ll earn one of three different endings, depending on the difficulty level you choose.

You’ll knock power out of your opponents by kicking and punching them and tossing them over your shoulder. The only way to finish them off though, is by using your most powerful Special Weapon; Burning Plasma. The Special Weapon Meter builds as you battle. When it hits Level Four, you’ll be able to fire off Burning Plasma. Weaken your opponent until the “Finish” message appears, then let him have it. He’ll disintegrate!
Super NES titles are really beginning to take off. In addition to the games that are mentioned elsewhere in this issue, recent releases include Drakkhen from Kemco/Seika, The Chessmaster from Mindscape and Hyperzone from Hal. Drakkhen is a role-playing game with a first-person perspective. During battle scenes, your party members come into view and fight, while you control one of them. The Chessmaster is a translation of the Chess game which has appeared on the NES and Game Boy. Hyperzone is a futuristic racing battle with dazzling graphics. You pilot a flying vehicle through a series of enemy-packed tracks.

### Use Your Magic Touch

Remember to record your best efforts on film and send them to NES Achievers. If yours is one of the highest we receive, or if you're one of the first to finish a game, your name might be listed in a future issue. When you take a picture of your television or Game Boy screen, hold your camera steady and use only natural light. For best results, use a 35 mm camera without a flash. Send your scores and photos to NES Achievers.

### WHOA, DUDES! IT'S BILL & TED!

Bill & Ted must be time traveling. They’ve come from nowhere to rate in the Players’ Top 30.

### PROS SETTLE IN FOR SOME SERIOUS PLAY

The pros like challenge, and they find it in complex, time-consuming RPGs.

### DEALERS GO FOR THE BIG NAMES

Looking for sure bets, dealers look for games with well known stars, like Mario, Bart, and the turtles.
Freddy’s Dead: The Final Nightmare is currently ripping up movie screens nationwide. We tracked down the film’s star, Robert Englund (a.k.a. “Freddy Krueger”), an avid Nintendo game fan, to talk to him about the film and the last movie appearance of his dreamstalking character. “While I’ve enjoyed developing Freddy’s character to icon status,” says Robert, “I think it’s time for me to move on. I am extremely pleased that so much effort has gone into the ‘Final Nightmare’.

While Robert has enjoyed portraying Freddy in all six Nightmare films and is happy about the character’s popularity, he’s quick to point out that Freddy Krueger shouldn’t be considered a role model. “I don’t see Freddy as a hero to anyone and I don’t think anybody wants to grow up to be that ugly evil ol’ cus.”

Yet, Robert still claims to play Nintendo games with the ferocity of the famous fiend who stalks the teenagers of Springwood in their dreams. “I’m really proud of the new retractable blades I’ve designed on my Power Glove,” he says with a Freddy-like sneer. “Now, I’m more agile when I play.”

If Robert (as Freddy) were to design a game he says that it would feature “Freddy Krueger destroying Jason Vorhees [of Friday the 13th fame] and that wimp Michael Myers [from the Halloween series]. I’d call it ‘Nightmare on Friday the 13th, Halloween Night’.” Robert goes on to say, with full Freddy flair, that his favorite games are “the ones where Fred Krueger decapitates the Mario Bros.” There are, of course, no such games in existence but he can dream can’t he?

Now that Robert has bid goodbye to Freddy Krueger, he’ll be appearing in a television pilot called Nightmare Cafe, which is being coproduced by Nightmare creator Wes Craven. He has also spent some time on the other side of the lens, directing his first feature film, 976-EVIL.

Even with busy filming schedules, Robert still plans to make time for surfing, traveling, reading and playing video games. His advice for game playing fans of Freddy is “always wear a Power Glove.”

Freddy’s Favorite Horror Films
1. The Innocents
2. Sisters
3. Rosemary’s Baby
4. White of the Eye
5. The Hitcher

Robert Englund brings Freddy Krueger back to the big screen for one more round.
It looks like the new year is going to offer a lot of excitement for NES and Super NES players. Programmers are borrowing the best themes from the movies, PCs and just about everywhere else... and the preliminary results are looking awesome.

**THE EMPIRE STRIKES BACK**

JVC and Lucas have teamed up again with the latest Star Wars game—The Empire Strikes Back—the result is outstanding as always. It sure doesn’t hurt Lucasarts having one of the hottest licenses of all time, and the programmers packed the Pak with tons of story and characters from the second Star Wars film.

The game takes Luke from the ice planet Hoth to the green, swampy world of Degobah and, we are told, on to Bespin, the Cloud City. Our two-thirds completed version only got us as far as a meeting with Yoda. Still, it was enough to get us excited. One of the most radical features is the use of transport. You can ride a snow beast or fly circles around an Imperial Walker in a Rebel Scout ship. If your mount or ship is blasted, Luke will have to hoof it through the rest of the stage or until he finds a new ride. Another notable feature is the voice reproduction. When Darth Vader speaks, we could swear we were hearing the real guy.

Basically, The Empire Strikes Back is an action game. Han Solo, Princess Leia and other characters give information from pop up screens but don’t join the team as they did in Star Wars. The controls take a little getting used to, especially when you’re making tricky jumps, but this Pak Watcher got caught up in the action and is waiting for more.
Overlord from Virgin Games is an adaption of a PC strategy game that combines terraforming and colonizing planets with alien battles. The idea is that you are at one end of the universe while an evil counterpart is at the other. The two of you are expanding your empires and eventually will meet. In order to be ready for that mother of all space battles you'll have to develop your planets by providing food and minerals and keeping tax rates low. As your population expands, recruit soldiers to protect your worlds and to act as a strike force. You can purchase all sorts of space ships, equip soldiers with weapons, carry colonists from one planet to another and receive messages from the enemy. This is one complex game, but for strategy fans it looks like a winner. One bit of advice—don't lose the manual!

WIZARDS & WARRIORS III

Acclaim Entertainment and Rare Ltd. have combined their resources to bring back Kuros the sword-wielding hero in Wizards & Warriors III: Kuros... Visions of Power. For starters, we thought the subtitle was particularly powerful. The graphics were also eye-grabbers. Rare has a knack for bold, colorful graphics. The story of this third Kuros adventure has our hero exploring three worlds—the City, the UnderWorld, and the Palace—preparing to meet the evil Malkil who has overthrown the King. Armor and swordplay won't be enough as Kuros must learn to fight magic with magic. There's lots of jumping and stabbing action, plus many items to find or purchase at the Inn. We found the most challenging aspect of the game was that you must return several times to the different worlds, where you find new treasures and learn new skills, such as how to be a thief. The result is that the game gets bigger and better the longer you play.
The two games featured this month in Development Dispatch are both great examples of how the Super NES allows maximum creativity for game programmers around the world. Lemmings was designed in Great Britain, while True Golf Classics comes to U.S. shores from Japan. There's a world of fun out there.

**LEMMINGS**

Save the Lemmings! That's the battle cry that crossed the Atlantic when Psygnosis, a British game developer, introduced Lemmings for the PC. Now Sun Soft is bringing the game to the Super NES. The idea is simple. A group of Lemmings (tiny, rodent-like characters who march mindlessly until given a purpose) must dig, bomb, bash and climb their way past a series of obstacles in every stage to reach the door. Your job is to assign special skills to well-positioned Lemmings in order to clear a path through the increasingly difficult mazes.

**TRUE GOLF CLASSICS**

Everything you can do on a real course you can do here. The course duplicates the championship 18 of the Waialae Country Club in Hawaii. T&E's programmers visited the course, got tips from the pro and included the notorious trade winds that make it so challenging. The control is super impressive. We truly felt like we were out there. The next T&E classic is slated to be Pebble Beach. Fore!
GOSSIP GALORE

BUCKY O’HARE
Konami’s whimsical space-faring bunny, Bucky O’Hare, is out to save his buddies who were captured by some ruthless extra-galactic toads and hidden on four planets. The NES graphics are bold and colorful and the action is very fast. Jumping and shooting are the keys to success. The early version has a stage select and passwords to keep you hopping along.

SUPER SPORTS FROM EA
Super NES sports fans should keep their eyes open for anything marked Electronic Arts. Why? Because EA has dedicated its resources to providing some super sports games including titles for baseball, golf, basketball, hockey as well as the PC hit John Madden’s Football. If the other titles are anything like JMF, expect sophistication that will be hard to beat on the field or on the Super NES.

ATTACK OF THE KILLER TOMATOES
One of the great cult movies is coming to the NES and Game Boy. Attack of the Killer Tomatoes from T.H.Q and Imagineering stars Chad Finletter as the unwilling hero who must stop a mad scientist about to unleash the dreaded Doomsday Tomato. Beefsteak, Mummato, Fang, Ketchuck and Tomacho plus all the Killer Tomatoes stalk Chad. Yes, these violent vegetables have a taste for human flesh. Chad must jump and stomp them into ketchup if San Zucchini is to be saved.

RUMOR WRAP UP
What’s the biggest news for ’92? That’s a tough question with so much going on, but here are a few titles that we’ve heard about: The Hook from Sony (based on the Steven Spielberg movie starring Robin Williams, Dustin Hoffman and Julia Roberts), Mega Man IV from Capcom (starring the one and only Mega Man), and Lagoon from Kemco-Seika (a Super NES adventure from the company that produced Shadowgate, Déjà Vu and Drakkhen). These are just a few of the highlights.

---

**Dear Readers,**

Early this summer, as the movie Robin Hood: Prince of Thieves was about to be released to theatres, we decided to ride on the coattails of Robin Hood mania and feature the NES adaptation of the movie on our cover. As I write this in late September however, the game is yet to be released and may not hit the shelves until snow hits the ground. While we try to cover games that you can immediately find at your local NES retailer, the long lead time for designing, writing and printing articles for the magazine often makes it difficult to know which games will be out when the magazine is sent to you. We do let a few reviews slip by, but we’ve caught some too. We were, for instance, planning to put Metroid II: Return of Samus on this issue’s cover but, the programmers are still fine tuning the game, so we’ve held off for another issue. Here’s hoping that future games and future reviews are released within closer proximity.

George Sinfield  Power Editor

The issue looks great, but where’s the game? We’re still waiting.
